NEW IST COURSE
ADVANCED DATABASE CONCEPTS

Course Description
IST 470-3. This course is designed to give students a conceptual understanding of database architecture and administration. Students will gain the necessary knowledge and skills to install, configure, set up, maintain, and troubleshoot a database. Other essential database administrative tasks will be covered. Prerequisite: IST 370 with a C or better.

Gain hands-on experience implementing and administering a variety of database management systems including Oracle, MySQL, SQL Server, and MongoDB!

INSTRUCTOR:
DR. NANCY MARTIN
